STATE NATURAL RESOURCES
CAMP NO. 4
DATE 1-19-07
BILL NO. SB 24

1-15-07

Senators of Montana:
Governor Brian Schweitzer:

Ref, Senate bill 24

Servants of the State of Montana,

It has been brought to our attention you wish to put us out of business with this bill.

The US EPA has already regulated that manufacturers build cleaner engines, in fact ten years ago. Not just marine but outdoor equipment as well.

If the state wishes to have this bill, the state must then purchase all those engines that are affected by this bill, which would otherwise be worthless by it's passage.

If Whitefish residents are concerned about pollution of their lake then regulate use of the lake so that no one can pollute the lake. Remember to include any one or thing that might stir up mud on the bottom.

Our legislature has many more important issues than trying to regulate better than the EPA.

Sincerely,
Owner and employees of Anchor Marine
